Dear Sir or Madam,

I am writing to express my strong interest in the Junior Programmer / IT Support position at PT. Nusantara Digital Indonesia, as advertised recently. As a dedicated graduating student in Information Technology, I am eager to apply my technical knowledge and problem-solving skills to support your dynamic team and assist in software development projects.

During my practical training and academic coursework, I have developed a solid foundation in basic programming languages, including PHP, Java, Python, and JavaScript. Additionally, I possess a good understanding of computer hardware, software configuration, and networking principles. My strong analytical and troubleshooting skills enable me to diagnose and resolve technical issues efficiently, while my clear communication abilities allow me to work collaboratively in a team or independently.

PT. Nusantara Digital Indonesia's reputation as a leading national technology and creative solutions company greatly inspires me. I am enthusiastic about contributing to your team by maintaining IT documentation, installing and configuring system infrastructure, and supporting ongoing software development initiatives.

I have attached my Curriculum Vitae (CV), academic certificate, and recent photograph for your review. I would welcome the opportunity to attend an interview to discuss how my background and skills align with the needs of your company. Thank you for your time and consideration.

Yours faithfully,

Dyari Nazar Anshary
